TEACHERS TO HOLD INSTITUTE HERE

Medina County Teachers' Institute Will Meet in Hondo September 6th-10th

The Medina County Teachers' Institute for white teachers will convene at Hondo, Texas, at 8:30 A. M. Monday, September 6, at the High School building and continue in session for five full days.

Every teacher in the county is requested to be present at the opening of the first day and continue to be on time for the entire week. Be prepared and prove yourself an interested teacher. Improve yourself and thereby benefit the people of Medina county who are realizing the great needs of our schools.

The Institute is held for the benefit of those in your charge, and for the advancement of the cause of education. Therefore do not shirk your duty, but put forth every effort toward making this Institute the best ever had in the county. Be not careless and disloyal to your profession, but give your pupils, patrons and county a "square deal."

The State Superintendent recommends Charter's "Teaching the Common Branches," to be used by the Institute. This book may be bought from the Southern School Book Department, Dallas, Texas.

This is a splendid text in the hands of every teacher and it should be purchased at once.

The State Department recommends that the Institute be divided into sections that it may do better work. I have followed its suggestions and have selected such subjects for the sectional meetings as came within the scope of all the schools of the respective sections.

The greatest good to the greatest number has been my purpose in making these selections.

The Supervisors have been appointed for each day, and are held responsible for the thorough and efficient work of all present. Bring pencil and note book and a copy of "Charter's" and be prepared for perfect recitations.

Teachers expect parents to buy books for their children so that efficient work may be done; for like reasons the State Superintendent and County Superintendent expect teachers to provide themselves with the adopted texts of the Institute so that good, honest work may be done.

Every teacher in the county, both in Common and Independent Districts, is required by law to have his certificate registered with the County Superintendent before a contract or election is valid. See that you have this done!

The County Board of Education, District Trustees, Mothers' and Parents' Clubs, and friends of the Institute are cordially invited to attend, submit questions and take part in all discussions.

A registration fee of fifty cents will be charged each teacher to help pay the expense of prominent educators of the State who were called to address the Institute. Should there remain a

balance it will be applied to the Medina County Teachers' Library Fund.

Monday's Program.

8:30 to 10:00. Opening exercises—song.

Welcome address.

Response. Prof. Hickman.

Special music. Miss Kate Saathoff.

Enrollment, Organization, Appointment of Committees.

Explanation of the Work of County Institute.

10:00-10:15. Recess.

2:20-2:45. The Importance of Biography in Teaching History. Prof. Moore.

2:45-3:00. Intermission.

3:00-3:30. The Educational Needs of Today. Compulsory Education. County Maintenance Tax. County Superintendent.

3:30-4:00. Theme Writing. How Often. Do You Select Subjects? Explain Fully. Hondo Eighth Grade Teacher, Devine English Teacher.

Algebra—Quadratics. Prof. O. W. Peters.

Business Meeting—Resolutions. Adjournment.

QUESTIONS FOR DISCUSSION.

1. Do you follow the lines of least resistance?

2. What, beside teaching, do you do for your community?

CAR TURNS OVER; FOUR ARE INJURED

While Returning from San Antonio Automobile Turned Turtle; No Fatalities

Last Sunday night as a party from Hondo were returning from San Antonio they had an experience that will last them sometime.

The party was composed of Alf. Bader, Julius Carter, Mr. Manis and Cleve Manis.

The party had just left Castroville, with Alf. Bader at the wheel. The shadows of night were gently enveloping the earth and the party were possibly dreaming of the good supper and the inviting couch that awaited them at the end of their tiresome journey.

Then something happened! Just what none of the party seem to know, but from the best information we can get it seems that the car shied at something, but as the party were immediately afterward busy extricating themselves from the mesquite brush and other growths that received them on their return to mother earth, they are rather vague as to what was responsible for the action of the car.

As evidence that the days of miracles are not passed we merely have to mention that none of the party were killed, although the entire party were considerable shaken up. Alf. Bader was the most severely injured of the party, he having his left shoulder dislocated, the muscles of his right arm strained besides losing a yard or two of epidermis from one of his shins; Mr. Manis, should he ever desire to wear an ear-ring, will not have to undergo the torture of having his ear pierced, a mesquite thorn performing this service for him when he came in contact with the earth; a little amnesia, well applied, will soon remedy the injuries received by Cleve Manis and Julius Carter.

The party had a close call and we are glad that none of them received injuries that will long inconvenience them.

At The Airdome.

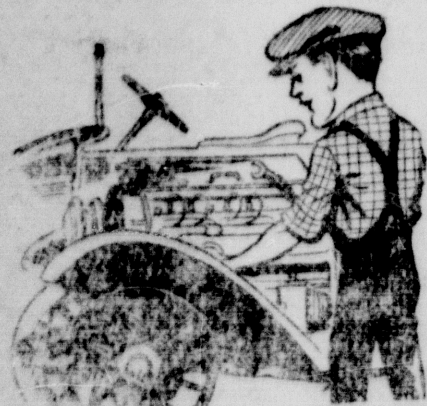

"You can lead a horse to water, but you cannot make him drink," will be the Baptist minister's address at the Airdome next Sunday evening at 8:30 o'clock. Attendance at these evening services has been continually increasing. Come and be one of our number.

"The Church Feeding the World," will be the subject of the morning service at the Baptist Church. Sunday School at 9:45 A. M. Let the membership of our church set the community an example by attending our services and welcoming all others to come and worship with us.

For Sale.

New furniture at cost price. Also a Jersey cow for \$45.00, now giving ten quarts of milk a day. The above are all mine and I can give a clear bill of sale to them.

LIKE SHOWER BATH

Fire Fighters May Be Protected
by Wall of Water.

In This Uniform a Man Need Have
Little Fear of the Fiercest Flames
—Tests Have Shown Its
Practicability.

The newest idea in fighting fires is to dress the firemen in shower baths. These are uniforms fireproofed with tiny streams of water so effectively that when clothed in one of them a man can stand right in the midst of the fiercest flames without suffering any ill effects.

The suit is made of fireproofed canvas. Between the two thicknesses of the fabric, sewed at the neck, is a perforated ring through which tiny streams of water are showered down between the layers of canvas.

The water finds outlets at the finger tips and at the soles of the feet. Through the perforated ring encircling the helmet water drenches it, also the suit, like a shower bath. With such an arrangement a fireman can walk right into a hot fire.

The uniform does not weigh more than twenty-five pounds, and does not add much to the usual service clothing

New "Shower-Bath" Uniform.

of firemen. The water supply is obtained from the line of hose in service through a one-half-inch hose connection. The water passing through this hose also operates a water motor of light weight which pumps fresh air into the helmet through another line of half-inch hose.

The uniform was tested out in Cincinnati recently. While the fireman enveloped in it stood in the center of a fierce fire of wood, coal oil and shavings, spectators could not get closer than twenty feet to the flames, so intense was the heat. But the man protected by the "shower-bath" suit remained in the flames five minutes, playing the hose, and was in no wise injured.

It is considered quite possible that this new idea can be adapted, so that it will be of great use in cases where it is necessary to send a large number of firemen to fight a fire at a certain point.

A protector, mounted on wheels so that it can be easily moved from place to place, might be constructed on the same lines as the shower-bath uniforms, but large enough to hold inside its protecting walls of falling water a dozen or more firemen.

In every home where there is a baby there should also be a bottle of McGee's Baby Elixir. It may be needed at any time to correct sour stomach, wind colic, diarrhoea or summer complaint. It is a wholesome remedy, contains no opium, morphine or injurious drug of any kind. Price 25c and 50c per bottle. Sold by W. H. Windrow.

Talking about the patience of Job, how does it compare with the patience of some wives with their jobs.

If your child is pale and sickly, picks at the nose, starts in the sleep and grinds the teeth while sleeping, it is a sure sign of worms. A remedy for these parasites will be found in White's Cream Vermifuge. It not only clears out the worms, but it restores health and cheerfulness. Price 25c per bottle. Sold by W. H. Windrow.

Wonder if a bride gauges the love of beaux who got left of the quality of their wedding presents?

Sallow complexion comes from bilious impurities in the blood and the fault lies with the liver and bowels—they are torpid. The medicine that gives results in such cases is Herbine. It is a fine liver stimulant and bowel regulator. Price 50c. Sold by W. H. Windrow.

A wolf in sheep's clothing—the person who comes to you confidentially to get information to peddle.

Constipation is the starting point for many serious diseases. To be healthy keep the bowels active and regular. Herbine will remove all accumulations in the bowels and put the system in prime condition. Price 50c. Sold by W. H. Windrow.

Deeds, Not Words.

Hondo People Have Absolute Proof of Deeds at Hondo.

It's not words but deeds that prove true merit.

The deeds of Doan's Kidney Pills, For Hondo kidney sufferers, Have made their local reputation. Proof lies in the testimony of Hondo people.

Mrs. J. W. Harris, Hondo, says: "I had a very annoying case of kidney complaint, which caused me a lot of pain. My kidneys didn't act as they should and I had dropsical swellings in my feet and ankles. My back was weak and felt like a heavy weight. Several boxes of Doan's Kidney Pills regulated the action of my kidneys, strengthened my back and rid me of the pains. I believe Doan's Kidney Pills will help any sufferer from kidney trouble."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Harris had. Foster-Milburn Co., Props., Buffalo, N. Y.

There are no disasters big enough to worry the person who has plenty to eat three times a day and a good appetite to go with it.

Despondency Due to Indigestion.

"About three months ago when I was suffering from indigestion which caused headache and dizzy spells and made me feel tired and despondent, I began taking Chamberlain's Tablets," writes Mrs. Geo. Hon, Macedon, N. Y. "This medicine proved to be the very thing I needed, as one day's treatment relieved me greatly. I used two bottles of Chamberlain's Tablets and they rid me of this trouble." Obtainable everywhere.

When you pretend to know all about anything you place yourself in a position of not wanting to learn and will soon be a back number.

The Clerk Guaranteed It.

"A customer came into my store the other day and said to one of my clerks, 'have you anything that will cure diarrhoea?' and my clerk went and got him a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and said to him, 'if this does not cure you, I will not charge you a cent for it.' So he took it home and came back in a day or two and said he was cured," writes J. H. Berry & Co., Salt Creek, Va. Obtainable everywhere.

If you have laughed at the stale jokes a man has sprung, he can hardly make fun of you when you ask for the loan of a five spot.

Recommends Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"I never hesitate to recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Sol Williams, merchant, Jesse, Tenn. "I sell more of it than of any other preparations of like character. I have used it myself and found it gave me more relief than anything else I have ever tried for the same purpose." Obtainable everywhere.

If the truth were known probably more than half the good people are good for other reasons than because they want to be.

What is Best for Indigestion?

Mr. A. Robinson of Drumquin, Ontario, has been troubled for years with indigestion, and recommends Chamberlain's Tablets as "the best medicine I ever used." If troubled with indigestion or constipation give them a trial. They are certain to prove beneficial. They are easy to take and pleasant in effect. Price, 25 cents. For sale by All Dealers.

The way we grieve and wall over our little troubles, it's a wonder that some others haven't died with their troubles.

Granulated Sore Eyes Cured.

"For twenty years I suffered from a bad case of granulated sore eyes, says Martin Boyd of Henrietta, Ky. In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since." This salve is for sale by All Dealers.

Hating a person doesn't do the object of the hate half as much harm as it does the person doing the hating.

For a Sprained Ankle.

If you will get a bottle of Chamberlain's Liniment and observe the directions given therewith faithfully, you will recover in much less time than is usually required. Obtainable everywhere.

Be sure you're right—then act just as courteous as if there were a possibility of your being mistaken.

If you sit in a cool draft when you are heated and get a stiff neck or lame back, you will be looking for something that will ease the pain. Fix your mind on Ballard's Snow Liniment and don't be talked out of it, because it is the best pain relieving liniment you can get anywhere. Price 25c, 50c and \$1.00 per bottle. Sold by W. H. Windrow.

German Coffee Cake

Made Without Yeast

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine. There is no warm bread quite as appropriate for Sunday morning breakfast as German Coffee Cake, yet it is seldom made by housewives who do not bake their own bread. If K C double raisin Baking Powder is used it will be just as good as if raised with yeast and it will have the further advantage of being fresh and warm. Save this recipe and try it next Sunday.

K C German Coffee Cake

Two and one-fourth cups sifted flour; 1 level teaspoonful K C Baking Powder; 1 level teaspoonful salt; 2 tablespoons melted butter; 2 tablespoons sugar; 1 egg; milk.

Sift dry ingredients together, beat the egg, add milk and butter to the egg to make one and one-quarter cups; stir all together with inverted spoon to a stiff batter. Turn into biscuit pan and spread even. Brush top lightly with melted butter. Sprinkle sugar and ground cinnamon over the top. Bake in moderate oven.

Dutch Apple Cake or Prune Kuchen can be made with this same batter by covering the top with pared and sliced apples, or cooked prunes with the pits removed, skin sides down. Dredge with sugar and cinnamon the same as for Coffee Cake.

"The Cook's Book" contains 90 just such delicious recipes. You can secure a copy free by sending the colored certificate packed in 25-cent cans of K C Baking Powder to the Jacques Mig. Co., Chicago, being sure to write your name and address plainly.

Dumplings

For Soups, Stews and Fricassee Chicken

Left overs of roast lamb, veal or beef, the cheaper cuts of fresh meats, and fowls too old for roasting, make delicious and nourishing stews. K C Dumplings make them doubly attractive and the whole dish is most economical—an object to most families where meats are so high and must be made to go as far as possible.

K C Dumplings

By Mrs. Nedda Briggs, the well known baking expert.

2 cups flour; 1 level teaspoonful K C Baking Powder; 1/2 teaspoonful salt; 1 cup shortening; milk or cream.

Sift together three times, the flour, baking powder and salt, into this work the shortening and use cream or milk to make a dough less stiff than for biscuits.

Allow the stew to boil down so that the liquid does not cover the meat or chicken. Add half a cup of cold water to stop its boiling and drop the dough in large spoonfuls on top of the meat or chicken. Cover and let boil again for 15 minutes.

Made with K C Baking Powder and steamed in this way, dumplings are as light as biscuits and are delicious with thickened gravy.

This recipe is adapted from one for Chicken Pot Pie in "The Cook's Book" by Janet McKenzie Hill, editor of the Boston Cooking School Magazine. The book contains 90 excellent recipes for things that are good to eat and that help reduce the cost of living. "The Cook's Book" sent free for the colored certificate packed in every 25-cent can of K C Baking Powder. Send to Jacques Mig. Co., Chicago.

THE WEST NOW HAS A WORLD MEDICAL CENTER

Instructors, Buildings and Equipment of
Washington University Medical
School and Affiliated Hospitals
Unsurpassed in the East.

CORNER OF A WARD IN THE NEW BUILDING OF THE ST. LOUIS CHILDREN'S HOSPITAL, AFFILIATED WITH WASHINGTON UNIVERSITY.

The West at last has become, in the fullest sense, the equal of the East in the teaching of medicine. What is regarded by many critics as the best balanced group of medical buildings in the world has risen at St. Louis. The great work is finished, with the exception of the students' dormitory, on Forest Park boulevard, due to be ready for occupancy in December, and the Nurses' Home, the exterior brick work on which already is about complete, although supplementary buildings may be erected later on.

Backed by millions of dollars for buildings and equipment and endowments totaling millions of dollars more, all given by loyal friends of Washington University, who recognized an opportunity to render humanity a great, enduring service and at the same time advance that university to the front rank of the world's institutions of learning, the Corporation of Washington University wisely began its work in behalf of a greater medical school by acquiring not buildings but men.

One of America's Big Three.

The buildings, which, with their modern equipment and the distinguished medical scientists presiding over them, have lifted the Washington University Medical School into a class the only other American members of which, strictly speaking, are the Johns Hopkins Medical School and the Harvard Medical School, both of the East, were planned in consultation with a group of the world's foremost authorities on medicine and allied sciences.

These same great men, whom the mighty school of medicine that has sprung up in the West was so fortunate as to secure as members of its faculty, also decided, of course, what should and should not constitute the equipment of these buildings. Long before the completion of the buildings, visitors began arriving in St. Louis for the sole purpose of inspecting this equipment, which is said to be the most nearly perfect of any in existence.

St. Louis Becomes a World Center. The metropolis of the American Southwest thus takes its place as a world center of education—the education of all forms of education—the education that has for its chief purposes the saving of human life and the lessening of human suffering.

A general statement issued by the Medical School in connection with the completion of the buildings and including a brief history of the school is in part as follows:

The Medical Department of Washington University, known since 1909 as the Washington University Medical School, continues the work of the St. Louis Medical College and the Missouri Medical College, the two oldest medical schools west of the Mississippi River.

The Medical Department of Kemper College of St. Louis was organized in 1840. In 1845 it became the Medical Department of the University of the State of Missouri. By change of its charter in 1855, it was made an independent institution known as the Missouri Medical College. The work of the School was discontinued in 1862, but resumed in 1865, at the end of the Civil War.

The Medical Department of St. Louis University, founded in 1842, was chartered as an independent institution in 1855 under the name of the St. Louis Medical College.

The Medical Department of Washington University was created by the corporation in 1891, when the St. Louis Medical College became a part of the Washington University. In 1899 the Missouri Medical College was merged with this department.

Graduates of the St. Louis Medical College number 2,125; of the Missouri Medical College, 2,549; and of the Medical Department of Washington University, 764.

In 1910 the corporation of the University, appreciating the value of the

service which a medical school can give to the community, with the co-operation of the Medical Faculty, reorganized the school in all departments and appointed heads of departments and instructors in anatomy, physiology, biological chemistry, pathology, preventive medicine, medicine, surgery, and pediatrics, who devote themselves to teaching and research, and associated with this staff clinical instructors chosen from the medical profession of St. Louis. These changes were made with the aid of funds donated by philanthropic citizens of St. Louis.

An affiliation has been established between the Barnes Hospital and the St. Louis Children's Hospital and Washington University, by which the University agrees to provide the medical staffs of the hospitals, and the hospitals agree to permit the University to use the hospitals for purposes of teaching and research. These hospitals have erected buildings on Kingshighway, overlooking Forest Park, which became available for use in the autumn of 1914. Adjacent to the hospitals are buildings, large, thoroughly equipped laboratories have just been completed. With this equipment and with the use of other hospitals in the city, the teaching staff of the University will be able to give laboratory and clinical instruction, and to conduct direct research in all branches of medicine.

School Occupies Three Buildings.

The Medical School occupies three buildings, in which the greater part of the work of the school is conducted. It has exclusive use of the teaching facilities of three hospitals, readily accessible from the Medical School, and has clinical privileges in the various City Institutions.

On November 1, 1914, Washington University, at the invitation of the authorities of the City Hospital, assumed control and became a part of the University. The care of one-third of the patients in the City and Infectious Hospitals, and agreed further to render such professional service in the other municipal institutions as the Hospital Commissioner might request.

The relationship of the hospitals and the Medical School, the changing conditions in the medical world calling for such affiliations and the advantages of such affiliations to the sick as well as to society at large, were explained by Robert S. Brookings, president of the Corporation of Washington University, on the occasion of the dedication of Barnes Hospital, as follows:

Germ Theory Revolutionizes Medicine.

The recent development of the germ theory of disease has brought medicine for the first time into the realm of what are known as the exact sciences, and has placed enormous emphasis on the laboratory service, both in diagnosis and treatment. Coupled with this is the great advance made in the use of apparatus, such as you will find in the X-ray department, the department of obstetrics, the heart station and other departments of the hospital. While there are certain simple laboratory tests which can be made by practically any young graduate student of modern medicine, the maximum laboratory service can only be secured through such extensive laboratories and elaborate staffs as are maintained by the highest class medical schools where the service is given to research and hospital work, as well as to teaching.

Then, again, the training of nurses must necessarily keep pace with the advance in medicine and the development of hospital social service work, so that the university or medical school for nurses becomes an important factor in such training.

In summing up the entire situation, we find that such successful and well-known hospitals as Johns Hopkins of Baltimore, the Massachusetts General of Boston, and the Presbyterian Hospital of New York, have adopted the same affiliation with the Washington University Medical School and the Barnes Hospital, which provides that the medical school train the nurses, that the hospital assume all responsibility for the care of the sick. It uses the patients in the wards for teaching and research purposes in such manner as proves most beneficial to the public in the training of its doctors and in adding, through research, to the sum of the world's knowledge of medicine, but also unquestionably to the greatest advantage to the patient.

With an intimate, personal knowledge of medical schools and hospitals on both sides of the water, I feel justified in saying that the Barnes Hospital and the Washington University Medical School, taken in their entirety—buildings, equipment and scientific staffs—offer facilities for research, the teaching of medicine and the diagnosis and treatment of disease unsurpassed in this or any other country.

All that I have said regarding our relations to the Barnes Hospital applies equally to the St. Louis Children's Hospital, with whom we have the same affiliation.

President Brookings Gave Millions. Mr. Brookings long has cherished the hope that the Washington University Medical School might become an institution of the first rank, and, in fact, is said to have contributed toward the realization of that hope several million dollars.

The officers of government and instruction of the Washington University Medical School include about 100 medical specialists, many of the foremost of whom devote to the school their entire time.

Besides the General Faculty, there is an Executive Faculty, those members of which, in addition to Chancellor David Franklin Houston, who is on leave of absence in order that he may serve as Secretary of Agriculture in President Wilson's Cabinet, and Acting Chancellor Frederic Aldin Hall, are Dr. Philip A. Shaffer, whose election as dean has just been announced; Dr. George Dock, Dr. Joseph Erlanger, Dr. Fred T. Murphy, Dr. Eugene L. Opie and Dr. Robert J. Terry, secretary.

Records of Heads of School.

Dr. Shaffer, who is professor of biological chemistry, received his training at Harvard and his subsequent experience in several important positions, including that of chemist to the Huntington Fund for Cancer Research, which he occupied from 1906 to 1910, and that of pathological chemist and head of the Chemical Section of the Laboratory of Bellevue Hospital, which he filled in 1909-10.

Since the bestowal of the degree of M. D. upon Dr. Dock by the University of Pennsylvania, in 1884, both his alma mater and Harvard have conferred honorary degrees upon him, in recognition of his contributions to medical science. Dr. Dock served as professor of pathology and clinical medicine at Texas Medical College and Hospital, 1888-91; professor of medicine at the University of Michigan, 1891-1908; professor of medicine at Tulane University, 1908-10; and dean of the Medical Faculty of Washington University, 1910-12. Besides being a member of the Executive Faculty of the reorganized medical school, he is professor of medicine there, consulting physician to the St. Louis City Hospital and physician-in-chief to Barnes Hospital.

Following the conferment of the degree of M. D. upon Dr. Erlanger at Johns Hopkins University in 1899, he became resident house officer of Johns Hopkins Hospital, and from 1900 to 1906 he served Johns Hopkins University as fellow in pathology, assistant instructor, associate, and associate professor of physiology. Dr. Erlanger was professor of physiology at the University of Wisconsin from 1906 to 1910 and now, besides being a member of the Executive Faculty and professor of physiology at the Washington University Medical School, is a member of the Editorial Committee of the American Journal of Physiology.

Dr. Murphy has brought to Washington University the benefit of years of experience as a teacher at the Harvard Medical School. His record, following his graduation from Harvard in 1901, with the degree of M. D., follows: Intern and graduate assistant, Massachusetts General Hospital, 1901-02; assistant in anatomy and Austin teaching fellow in surgery, Harvard Medical School, 1903-05; assistant surgeon, Infants' Hospital, Boston, 1904-08; surgeon to outpatients, Massachusetts General Hospital, 1907-11; visiting surgeon to clinic, Harvard Medical School, 1909-11; assistant in surgery, Harvard Medical School, 1910-11; professor of surgery at Washington University Medical School and surgeon-in-chief to Barnes and St. Louis Children's Hospitals.

Dr. Opie is a Johns Hopkins man "all the way," having received at that university his A. B. as well as his M. D. degree. His record since his acquisition, in 1897, of the latter degree, follows: Resident house officer, Johns Hopkins Hospital, 1897-98; assistant resident pathologist there, 1900-02; fellow, assistant, instructor and associate in pathology, Johns Hopkins Medical School, 1897-04; associate and member of the Rockefeller Institute of Medical Research, New York, 1904-10; pathologist to the Presbyterian Hospital of New York, 1907-10; co-editor of the Journal of Experimental Medicine, 1904-10; professor of pathology of the Washington University Medical School and Dr. Shaffer's immediate predecessor as dean; pathologist to the Barnes and St. Louis Children's Hospitals.

The professor of anatomy, Dr. Terry, is a Washington University man. Besides having received his A. B. degree at the university, he is a graduate of the Missouri Medical College, which the university absorbed. Following a year's service as interne at the St. Louis Female Hospital, Dr. Terry served as demonstrator in anatomy at the Missouri Medical College, 1896-99; assistant professor and professor of anatomy at Washington University, 1899-1901; Austin teaching fellow in histology and embryology at Harvard, 1906-07. He edits the Bulletin of Washington University Medical School.

HOW WASHINGTON UNIVERSITY BEGAN

Chartered and Organized in the
Fifties on Birthdays of
"Father of Country."

BECAME "UNIVERSITY" IN 1857

Farsighted Founders Gave School
Great Name Into Which to Grow,
and It Proved Equal to Its
Opportunity.

WASHINGTON UNIVERSITY TOWERS.

"From what did Washington University derive its name?" is a question asked with increasing frequency since the great institution of learning at St. Louis commenced to attract world-wide attention.

Although most of the inquiries originate in other cities than St. Louis, many St. Louisans have inaccurate information on the matter.

The inquirer on the street in St. Louis is likely to be informed that the name Washington naturally settled itself upon the university as a result of its location, when a small school, on Washington avenue. That is the explanation received by the writer shortly after his arrival in St. Louis. But that does not explain truthfully.

True Story of Source of Name.

The real explanation may be found in an historical sketch which the university has issued and which in part follows:

On the 22nd of February, 1853, at the instance of Wayman Crow, Esq., member of the State Senate, the Legislature of Missouri granted a charter to an educational institution to be located in St. Louis, and to bear the name of Eliot Seminary, in honor of the Rev. William Eliot of St. Louis. The charter, a most liberal one, was to be perpetual, and no limitations were imposed, excepting those which forbade any sectarian or partisan instruction.

The first meeting of the corporation named in the charter was held on the 22nd of February, 1854. In deference to the wishes of Dr. Eliot, the name of the institution was changed. Since the charter had been granted on the 22nd of February, the birthday of Washington, and since the meeting of the corporation for organization had also occurred on this same anniversary, it seemed to the founders that the name was significant of the character of the institution which they sought to found.

The first educational work done under the charter of 1853 was the opening of an evening school for boys, in a building on Sixth street, during the winter of 1854-55. This school was called the "O'Fallon Polytechnic Institute," in honor of Colonel John O'Fallon, for years one of the University directors.

Real Beginning of University.

This evening school, and a day school which had been in operation for some time before this period, were carried on together until, in September, 1855, a building on Seventeenth street was completed and occupied by the day school. The evening school was sustained for several years by the University until by special arrangement the entire care of this school was assumed by the Public School Board. This school on Seventeenth street, the forerunner of the present Smith Academy, now a secondary school of the University, was the real beginning of Washington University. The formal inauguration of the University took place on the 23rd of April, 1857. Later in the year a building was erected for the chemical laboratory. In the next year the organization of the College was completed. The first College degrees were granted in 1862.

The east wing of the main building, of which the academic building formed the south wing, was erected in 1858 and used for College classes. The west wing was added in 1871 and devoted to the Polytechnic School.

In the meantime the University had been growing, adding new departments, and receiving additional endowments. The Law School was organized in 1867; the Polytechnic School, now known as the School of Engineering and Architecture, in 1870; the School of Fine Arts in 1879; the School of Botany in 1885. The St. Louis Medical College, founded in 1842, was admitted as a department of the University in 1899. The Missouri Dental College in 1892. In 1899 the Missouri Medical College, founded in 1849, was united with the St. Louis Medical College to form the Medical School of Washington University.

RHEUMATISM ARRESTED

Many people suffer the tortures of lame muscles and stiffened joints because of impurities in the blood, and each succeeding attack seems more acute until rheumatism has invaded the whole system. To arrest rheumatism it is quite as important to improve your general health as to purify your blood, and the cod liver oil in Scott's Emulsion is nature's great blood-maker, while its medicinal nourishment strengthens the organs to expel the impurities and upbuild your strength. Scott's Emulsion is helping thousands every day who could not find other relief. Refuse the alcoholic substitutes.

Made My Life Worth Living

"I feel it my duty to tell others what Chamberlain's Tablets have done for me," writes Mrs. L. Dunlap, of Oak Grove, Mich. "I have suffered with pains in my back and my shoulder blade for a number of years, also with a poor appetite and constipation. I tried all of the remedies that I heard of, and a number of doctors, but got no relief. Finally a friend told me to try Chamberlain's Stomach and Liver Tablets. I got a bottle of them and they soon helped my stomach; by their gentle action my bowels became more regular. Today I feel like praising them to all who suffer as I did for they have cured me and made my life worth living."

Chamberlain's COLIC, CHOLERA AND Diarrhoea Remedy

THIS is unquestionably the successful medicine in all bowel complaints, and it is the recognized standard over a large part of the civilized world. Every man of a family should keep this remedy in his home. Buy it now. It may save his life. Price 25c. Large Size 50c.

A nice place for Ladies to dine at "Bob's" Callahan's Restaurant, next door to Post Office.

Two lunacy cases were before the county court this week, one Wm. Hutzler, white, and one a Mexican. Both were found insane and ordered restrained.

Ray, J. M. Alexander returned from his vacation yesterday. Mrs. Alexander is prolonging her stay in San Antonio a while longer owing to the illness of her sister in San Antonio.

Don't talk war but talk insurance with Joe Fohn, who can supply you with the best in the market in all kinds of insurance except fire, in one of the oldest and strongest companies in the world—The Aetna Life Insurance Company.

Born, to Mr. and Mrs. Edwin Bendele Monday, August 16, a fine girl.

Rev. J. T. Horger will preach at Fusselman school house the 4th Sunday at 4:30 P. M. Also at the Nazarene church, in Hondo on the 5th Sunday at 11:00 A. M. and 8:30 P. M. during August.

W. R. Meredith, who was brought from New Mexico last week by Sheriff Bader on account of his bondmen surrounding him, has given a new bond and has been released from custody and has returned to New Mexico. Lockhart parties furnished the new bond.

A Little Child.

Just three and one-half years ago, the friends and relatives of Mr. and Mrs. Glen Benson of Sinton rejoiced with them over the advent of their first born—a little daughter. Glad was her welcome, and she was given the name of Katherine Elizabeth. Each day saw her face grow more delicately fair, and her home became a foretaste of Heaven because she was its queen.

Time sped on and that throng of friends gathered in Corpus Christi last Thursday to grieve with her stricken parents over a tiny white casket that held all that was earthly of Katherine Elizabeth.

Three weeks ago she fell ill. Plainly it seemed to be that her stay was ended, for nothing availed to keep her here. Wednesday night at ten o'clock at the home of her uncle, Mr. E. T. Merriman, the struggle for her life ended and she was wafted to the arms of the One who had loved her from all eternity. He had not planned to give her for always. He only sent her to pass through the world as a ray of light to guide us to more perfect days, to lead us toward higher, holier things, and then to come back pure and unsullied to be forever of His undefined.

It is well with the child, but to those who wore the crown of parenthood and who now stand divested of it the days will be long and the nights will be lonely.

To them we would say: Go lay your all at the Master's feet, tearfully but not grudgingly. Precious in his sight will be this gift, and He will not be less generous than you. He will take you by the hand, mindful of your willing sacrifice, and lead you through the shadows that engulf you. He will give you the peace that alone comes to those who suffer for His sake.—Corpus Christi paper.

LAND—\$12 00 PER ACRE

100 Acres Up—One-third Down
—Balance Easy Terms
—Seven Per Cent

This is good heavy sandy loam land, lies two miles south of Batesville, fronting main county road on one side, daily mail and telephone connection, other side fronts on the Leona river, shallow water at 48 feet, heavily timbered and level as a floor.

To give you an idea the kind of land it is, one man, who has just bought 500 acres and is clearing it, is getting from seven to eleven cords of wood per acre, besides posts and staves. Grubbing is cheap now, this man paying six dollars per acre. He has just finished drilling two wells, struck water at 48 feet, went through twelve feet of water gravel, gave it the strongest test possible but could not lower it an inch.

Batesville, the county seat of Zavala county, is located twenty miles from Uvalde and fifteen miles from La Pryor. It maintains a High School, classified as such by the State Department of Education, which is in walking distance of this land.

This is the best buy in Southwest Texas and we have only about 1600 acres left at this price. Anyone wanting something good had better come and look at this. Can sell in tracts of 100 acres up, each tract fronting both the road and the river, \$12.00 per acre, one third down, balance to suit at seven per cent. If interested, write or phone and we will meet you in Uvalde anytime and show you the land.

A. E. KLEIN, or
O. A. STUBBS,
Batesville, Texas.

Taxable Values Show Increase.

Taxable values, 1915.....\$12,078,618

Taxable values, 1914.....11,643,904

Increase for 1915.....\$ 434,714

The tax rolls of Medina county are now complete and a comparison with the 1914 rolls shows the above gratifying result—nearly one-half million dollars increase!

The preparation of the Medina county tax rolls is getting to be a huge undertaking and Assessor Heath and his assistants, Aug. Hornung and Emil Britsch have worked assiduously for the past several months, and now that their work is finally completed they feel a pardonable pride in their work, for we venture the assertion that it is one of the neatest pieces of work that will be filed with the Comptroller's Department this year, the entire rolls being prepared on a typewriter—the first time the rolls of this county have been thus prepared.

Assessor Heath will leave Monday for Austin with the rolls.

Following is a list of the taxable values as shown by the rolls:

Article	Quantity	Value
Real estate, acres, 829,333		\$5,251,760
Town lots.....	1,003,975	
Horses, etc.....	9,085	470,695
Cattle.....	29,602	525,510
Jacks.....	72	9,115
Sheep.....	1,392	4,005
Goats.....	5,412	10,680
Hogs.....	2,679	9,285
Dogs.....	33	30
Vehicles.....	2,755	238,368
Merchandise.....		271,465
Machinery.....		148,345
Money on hand.....		25,080
Notes.....		708,960
Corporations.....		1,367,150
Miscellaneous.....		99,870
Banks.....		171,073
Railroads.....		550,160
R. R. rolling stock.....		232,677
Intangible assets.....		945,248
Tele. & Telg. Cos.....		33,240
Total ass'd values.....		\$12,078,618

On the above valuations the following taxes will be collected.

State Poll.....	2,299.50
County Poll.....	\$33.55
Total amount to be collected \$124,692.25	

Farmers' Union Warehouse Open for Business.

The Union Warehouse Co. of Hondo has employed me as manager for the season of 1915-16.

I opened the doors for the purpose of receiving cotton and cotton seed on August 16, and on account of having to finish my course in cotton grading I have employed my brother, Henry Crow, to look after the business, under bond, until I return from the cotton-grading school, when I will bring my certificate from the State, together with a Fidelity Bond of \$7,500.00, which the State requires, to make the patrons secure on any business that they may do through the warehouse under my management.

On September 1st we will do business under the new State Warehouse Law, and this is the reason for the late opening.

SAXON SIX--\$785

The Builders of America's Highest Priced Cars

have just made announcement of their policy for the next eighteen months. These companies make known that they will build six-cylinder cars exclusively. That fact we consider a tribute to the six-cylinder motor for touring car use.

The "Six" has proved itself. Motorists know its wonderful power, smoothness, flexibility and, above all, dependability.

Why be content with less than a "Six" when you can enjoy the luxury, comfort and satisfaction of a "Saxon Six" for \$785? Saxon was the first "Six" offered at less than \$1,000. More of them are sold than any other low-priced "Six." Come and let us prove the superiority of this wonderful car.

Note these features; 6-cylinder Saxon-Continental motor, 30-35 H. P.; Timken axles; Gray and Davis electric starting and lighting; honeycomb radiator; dry plate clutch; 112 inch wheelbase; 32x3 1/2 inch tires; cantilever springs

SATURDAY, AUGUST 21, 1915.

Fifth Meeting of State Farmers' Institute.

The fifth annual convention of the Texas State Farmers' Institute convened in Austin, Tuesday, July 27, and adjourned the following Friday. Approximately 2,000 delegates, representing probably 2,000 local institutes with a membership of over 200,000, attended this greatest of the State meetings yet held.

Its sessions, of which there were twelve, were held on two days in the House of Representatives, the largest hall of the Capitol building.

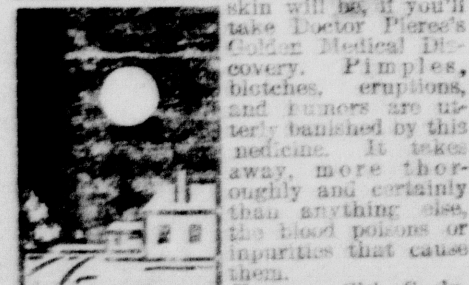

The proceedings embraced addresses and papers by many of the most eminent agricultural authorities of the State, including members of the faculty of the State University, representatives of the Federal Department of Agriculture, of the Extension Department of the A. & M. College, and institute lecturers of the State Department of Agriculture.

The subjects discussed or treated by these experts comprehended every thing of practical interest or importance to the farmer; and the speakers, without exception, commanded the closest interest and attention at every session.

Two features of the Institute were the four sessions each of the Woman's Division, directed by Mrs. E. M. Barrett, and the Girls' Home Economics Bureau, directed by Mrs. J. L. Landrum. The sessions of the former were held in the Girls' Study Hall of the University, and of the latter, alternately on the lawn of the Blind Institute and in "K" Hall of the University. Each of these sessions, attended by all delegates, evoked wide interest among the woman population of the Capitol City as attested by the large numbers in attendance. The Woman's Division was addressed by several ladies of State reputation on topics of peculiar interest to the farm home. A much fuller report of the proceedings of the Girls' Home Economics Division is available to the editor.

The Girls' Home Economic Clubs of twenty-two towns were represented by seventy-three girl delegates between the ages of eight and sixteen—as superb a representation of Texas maidenhood as could be collected in the State. The president of each of these clubs was present, and made in person the reports of the club's achievements in the few months of its existence. These reports show that the girls of these clubs have canned or preserved of this year's products over 15,000 quarts, and has accumulated at date, after defraying all club expenses, a

FAIR AND CLEAR—that's the way your

For every Skin, Scab, and Scrofulous affection, no matter how it came, the "Discovery" cleanses, builds up, strengthens, and invigorates every part of the system. Eczema, Erysipelas, Salt-rheum, Tetter, Boils, Carbuncles, Enlarged Glands, and the worst Scrofulous sores and swellings are completely and permanently cured by it.

Mrs. W. L. Yarnon, of 402 S. Tennessee Street, McKinney, Texas, says:

"I have used Dr. Pierce's Golden Medical Discovery and found it a wonderful medicine. Was greatly benefited by its use. I think it is a fine blood-cure and good for children. Hope it will do for others what it has done for me."

Beware of Ointments for Catarrh that Contain Mercury

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous membrane of the nose, you are advised to avoid such preparations. There is no remedy so potent as that which cures. Catarrh is cured by the use of the "Family Pills" of Dr. J. C. Cheney & Co., Toledo, Ohio. It is taken internally and made in Hondo, Ohio, by F. J. Cheney & Co., Toledo, Ohio. Price 50c per bottle. Sold by Druggists. Price 50c per bottle. Take Hall's Family Pills for constipation.

surplus of something over \$1,100. They made this money by serving ice cream suppers, higher meals, baking cakes, pies, and other delicacies of home grown materials. The Collinsville Club led in the quantity of fruits and vegetables canned or preserved, one young lady alone putting up over nine hundred quarts. This money has been appropriated to various uses; one club is to buy a piano; another to construct sidewalks about the schoolhouses of its community, while others have chosen to disburse it in general civic improvements. These clubs also sent two hundred quarts of canned and preserved products to the Galveston Cotton Palace for exhibition, and provided the menu for the Economic Club's banquet at Dallas to the Commercial Secretaries, where they entertained one hundred and six guests, including the mayor and the judges of the various courts. They served their own breakfasts during the Institute, entertaining at one of these Governor and Mrs. Ferguson, Commissioner and Mrs. Davis, and Austin's Commercial Secretary, Mr. Long and Mrs. Long.

At its concluding session the Institute, embracing all divisions, expressed its appreciation of its reception and courtesies extended by the citizens of Austin, especially thanking the railroads centering here, the manager of the Traction Company, the Chamber of Commerce, Prof. and Mrs. Bramlette, of the Blind Institute, Prof. Urbantke of the Deaf and Dumb Institute, Miss Corbett, of the Woman's Business Association, the merchants who contributed to the Girls' Home Economic Club, the Boy Scouts, the Camp Fire Girls, the chaperones, and the Department of Agriculture.

Secretary Bester, of the New Orleans Cotton Exchange reports the 1914 cotton crop of the United States at 15,108,011 bales against the Government's report of 16,134,930 bales. Both of these figures largely exceed the popular estimate, and, in view of the Government's estimate of the probable crop of this year at approximately 12,000,000 bales, emphasizes the warehouse and marketing problems, especially since the European war conditions have practically closed the market for between 3,000,000 and 4,000,000 bales. We appear to be threatened with an abundant surplus which can only be met by a uniform system of State controlled bonded warehouses in all of the Southern States and a further heavy reduction of cotton acreage next year.

A gratifying evidence of the success of the recently inaugurated report last week of the Fifth District of the Texas Bankers' Association, by which it is shown that the cotton stored in the warehouses of thirty counties of that district increased in price from \$8.50 to \$15.00 per bale, and that the warehouses themselves made very considerable dividends on their investments. The problem is knocking at our door.

Let Texas Do It.

A number of years ago there was an interesting old Texas character, Judge Bean by name, who held court about 70 miles southwest of San Antonio. Before him one day was brought a white man, charged with having shot a Mexican. Upon hearing

Honor learned there had been two Mexicans in the affray, one of whom had escaped unhurt. "You are fined ten dollars," he severely informed the white man, "for not getting both of them."

Judge Bean represented Texas sentiment in those days, and so far as I know the sentiment has not changed.

Possibility of the United States becoming involved in the present European war is becoming more remote every day. The most serious matter which may require armed action is the Mexican situation, which today is again on the carpet.

Appeals to the factional leaders of Mexico, "moral suasion," kind words and bluster have failed. Affairs in the revolution-ravaged republic are in worse shape than they were three years, two years, one year, six months ago. We are once more facing the prospect of armed intervention to protect ourselves as well as to save the remaining Mexicans from themselves.

If the United States really desires to have the matter settled quickly and to the best interest of this country as well as Mexico, the Federal Government should let the State of Texas handle it. The Texans proved their ability in the days of long ago when they fought their way to independence from Mexican rule, and every time the United States has had trouble with the Mexicans, the sturdy descendants of the border heroes have been eager to do the work. It was only a short time ago that Texas became so aroused over the continued raids upon her territory by bands of "greaser" bandits and cutthroats that she determined to take matters into her own hands, and would have done so had not a Government official been hurriedly sent from Washington to argue against action.

The Mexicans do not fear the United States, but they have a wholesome respect for Texans. It is a common expression down on the other side of the Rio Grande that "Mexico could lick the United States if it wasn't for Texas." Repetition of such outrages as have been committed lately by Mexicans in Texas may make the Lone Star State forget that it is handicapped by the U. S. Government. The Texas Rangers, as I knew them in the old days, would make mighty short work of the Mexican trouble if they were only turned loose. There are few Rangers now, but the men who live on the border know how to deal with Mexicans and would waste no time with talk. — W. D. Boyce in The Chicago Saturday Blade.

Is Sickness a Sin?

If not, it's wicked to neglect illness and means of relief. It's wicked to endure Liver Ills, Headache, Indigestion, Constipation, when one dose of Po-Do-Lax gives relief. Po-Do-Lax is Podophyllin (May Apple), without the gripe. It arouses the Liver, increases the flow of bile—Nature's antiseptic in the bowels. Your Constipation and other ills disappear over night because Po-Do-Lax has helped Nature to remove the cause. Get a bottle from your Druggist today. Get rid of your Constipation overnight.

HONDO LAND CO.

Don't Invite Serious Sickness

"A stitch in time saves nine," is an old and trite saying, but it is nevertheless true. Common colds and a constipated condition are the foundation of much serious illness and dread disease that could be avoided if prompt attention were given to the first so-called slight ailment.

Every family can provide prompt treatment for these first attacks of ill health—and every family should be prepared for an emergency by having on hand that standard old family cough syrup, Foley's Honey and Tar Compound, for the relief of coughs, croup, whooping cough, irritated and inflamed throat, tight and sore chest, grippe and bronchial coughs.

Foley's Cathartic Tablets are just the thing for constipation and sluggish bowel movement—a wholesome laxative and cleansing cathartic. They do not gripe or cause nausea or inconvenience and are particularly welcome to stout people.

A Medicine Chest for 25c.

In this chest you have an excellent remedy for Toothache, Bruises, Sprains, Stiff Neck, Backache, Neuralgia, Rheumatism and for most emergencies. One 25c bottle of Sloan's Liniment does it all—this because these ailments are symptoms, not diseases and are caused by congestion and inflammation. If you doubt, ask those who use Sloan's Liniment, or better still, buy a 25c bottle and prove it. All Druggists.

If you are not particularly anxious about when a thing gets done turn it over to someone else.

We all believe in reforms—the only trouble is to get someone else upon whom to start.

When love is blind, how is it that so many fall in love at first sight.

Hy. Vonfle was a San Antonio business visitor the middle of the week.

Blacksmiths Albert Geiger and A. E. Halbardier were San Antonio business visitors on Sunday.

Ed Hans and family, Joe Hans and family and August J. Mangold and family and Mrs. Adolph Ahr and children visited kinfolks and friends at Lacoste Sunday.

Mr. and Mrs. Louis Fuos, and Misses Alma and Hilda Etter visited kinfolks near Devine Sunday.

Carpenters Fuos and Hans, and assistants Etter, Holzhaus and others are hard at work on the old court house, converting the lower apartments into two large school rooms and otherwise renovating the same.

We received a card from Mr. and Mrs. Louis Scherrer Sunday from Corpus Christi, saying they were enjoying their outing very much.

Castroville, August 16, 1915.

Two Common Summer Ailments.

Thousands of hay fever and asthma victims who are not able to go to the mountains find relief in Foley's Honey and Tar Compound. It allays the inflammation, soothes and heals raw and rasping bronchial tubes and helps to overcome difficulty in breathing, and makes sound, refreshing sleep possible. W. H. Windrow, Hondo; Louis Carle, D'Hanis.

Address at Brackettville.

Brackettville, Tex., Aug. 15.—Sam Neel and Fletcher Davis, field agents of the State Department of Agriculture, spoke here yesterday afternoon at the courthouse under the auspices of the local Farmers' Institute. Mr. Neel dealt with the principles of dry farming and plant growth, emphasizing the importance of the rotation of crops. Mr. Davis spoke on diversification and living at home, paying particular attention to the business side of farming.—San Antonio Express.

Brakeman was Cured.

F. A. Wootsey, Jacksonville, Texas, writes: "I was down with kidney trouble and rheumatism; had a backache all the time and was tired of living. I took Foley Kidney Pills and was thoroughly cured." Thousands have written similar letters. Foley Kidney Pills are tonic in effect and act promptly. W. H. Windrow, Hondo; Louis Carle, D'Hanis.

About People You Know.

Miss Annie Nahr and Louis Nahr of D'Hanis, accompanied Miss Clara Pinganot on her return home from a visit to relatives in D'Hanis.—Del Rio News.

Leo Batot and family of Hondo arrived Tuesday of last week on a visit to Joe Lieber and family. They returned to Hondo Tuesday of this week, accompanied by Mr. Lieber and daughter, Miss Fannie.—Uvalde Leader-News.

The Misses Canon of Hondo are visiting their grandparents, Mr. and Mrs. W. K. Mask, this week.—Jourdanton Semi-Weekly News.

Mr. and Mrs. Frank Heath of Hondo visited at the home of T. F. Raggsdale one day last week.—Lytle Texas Arrow.

John Doletourt is in our neighborhood with his power thrasher, corn sheller and hay baler.—Lytle Texas Arrow.

Mrs. H. F. Wurzbach and sons, Milton and Ellis, of Cliff and Mrs. Otto Zoller and sons, Raymond and Otto, of San Antonio were visiting relatives and friends at Moore this week.—Moore Model.

Mrs. W. K. Mask and daughter, Miss Lola, have returned from an extended trip in North Texas.—Lytle Texas Arrow.

Mrs. R. V. Sauer and daughter, Miss Elsie, and sons, George and Oswald, left Wednesday in their car for Corpus Christi and other points where they will enjoy a pleasant out-door trip.—Brackett News-Mail.

Portugal's New President.

At the age of fourteen the new president of Portugal, Senhor Theophilo Braga, was attending school by day and working in a printing office by night, his home lessons being done in the hours robbed from sleep. Still he found leisure for rhyming, and two months before his sixteenth birthday the schoolboy-compositor published "Folhas Verdes," a volume now highly prized by Portuguese book collectors. Unlike most of the precocious outpourings of genius, this contains poems of permanent value, and several editions have appeared since the author attained to fame. Its publication secured him a position on a newspaper, and by the time he was eighteen he had saved enough money to study at the University of Coimbra. "It was at Coimbra," Senhor Braga records, "that I first became acquainted with my favorite authors—Kant, Hegel, Comte, Ranke, Macaulay, Goethe, Shakespeare and Hugo." And it was at Coimbra that he wrote "A Vision of Time," the greatest poem produced in Portugal since the death of Camoens.

New Disease Attacks Bananas.

A plant disease of unknown origin and nature is making trouble on some of the great banana plantations of the West Indies. It makes the trees suddenly wither and dry up as they stand, and new trees planted on the same soil likewise die. As yet the plague affects only certain districts. The red banana, which many consider more delicious than the yellow, is immune from it.—Youth's Companion.

Where It Goes.

A married man's energy is divided 60-40, says Doc Wiley. Sixty in providing food and 40 in providing mother's raiment. However, we have yet to hear from mother on this question.—Seattle Post-Intelligencer.

Your Cough Can be Stopped.

Using care to avoid draughts, exposure, sudden changes, and taking a treatment of Dr. King's New Discovery, will positively relieve, and in time will surely rid you, of your cough. The first dose soothes the irritation, checks your cough, which stops in a short time. Dr. King's New Discovery has been used successfully for 45 years and is guaranteed to cure you. Money back if it fails. Get a bottle from your Druggist; it costs only a little and will help you so much.

Sabinal Sentinel Siftings.

Messrs. Davis and Neel of the State Department of Agriculture were here Tuesday to lecture, but on account of the big union meeting they did not lecture. They lectured at Utopia Wednesday.

Mrs. T. E. Wyatt went to Hondo Tuesday on a visit.

Mrs. Chas. Jones of Utopia went to Hondo Tuesday to visit her daughter.

Mr. Fred Reinhart was over from Seco Saturday.

Mr. J. N. Dowdy of Hondo came over last night to sell peaches here. He is working for Bro. D. W. Campbell.

Constipation Causes Most Ills.

Accumulated waste in your thirty feet of bowels causes absorption of poisons, tends to produce fevers, upsets digestions. You belch gas, feel stuffy, irritable, almost cranky. It isn't you—it's your condition. Eliminate this poisonous waste by taking one or two Dr. King's New Life Pills tonight. Enjoy a full, free bowel movement in the morning—you feel so grateful. Get an original bottle, containing 36 pills, from your Druggist today for 25c.

STOMACH TROUBLE FOR FIVE YEARS

Majority of Friends Thought Mr.

Hughes Would Die, But

One Helped Him to

Recovery.

Pomeroyton, Ky.—An interesting advice from this place, Mr. A. J. Hughes writes as follows: "I was down with stomach trouble for five (5) years, and would have sick headache so bad, at times, that I thought surely I would die. I tried different treatments, but they did not seem to do me any good. I got so bad, I could not eat or sleep, and all my friends, except one, thought I would die. He advised me to try Thedford's Black-Draught, and quit

taking other medicines. I decided to take his advice, although I did not have any confidence in it.

I have now been taking Black-Draught for three months, and it has cured me—haven't had those awful sick headaches since I began using it.

I am so thankful for what Black-Draught has done for me."

Thedford's Black-Draught has been found a very valuable medicine for derangements of the stomach and liver. It is composed of pure, vegetable herbs, contains no dangerous ingredients, and acts gently, yet surely. It can be freely used by young and old, and should be kept in every family chest.

Get a package today.
Only a quarter.

CALOMEL WHEN BILIOUS? NO! STOP! MAKES YOU SICK AND SALIVATES

"Dodson's Liver Tone" Is Harmless To
Clean Your Stagnant Liver
and Bowels.

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work.
Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with your bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight on my guarantee.

Here's my guarantee—Go to any drug store and get a 50 cent bottle of Dodson's Liver Tone. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not sicken or make you sick.
I guarantee that one spoonful of Dodson's Liver Tone will put your sluggish liver to work and clean your bowels of that sour bile and constipated waste which is clogging your system and making you feel miserable. I guarantee that a bottle of Dodson's Liver Tone will keep your entire family feeling fine for months. Give it to your children. It is harmless; doesn't gripe and they like its pleasant taste.

TAN-NO-MORE
AND
FRECKLEATER

Two of the most
Scientific Beautifying
Agencies Known.

TAN-NO-MORE THE SKIN BEAUTIFIER

The scientific combination of Cream and Powder. Delightful in appearance and pleasing in its effect. Used during the day it is a protection from the sun and wind. In the evening its use assures a faultless complexion.

New Fountain Notes.

Prof. August Myers and wife moved with their household goods from Hondo to New Fountain. They are domiciled in the Ehme Saathoff house recently purchased from Chas. Senne. Prof. Myers and his sister-in-law, Miss Swearingen, will be the teachers of the New Fountain school the coming season. We welcome them to our burg.

Mr. and Mrs. Fritz Helmke and children, Frank and Ester, returned last week from San Antonio where they had been visiting relatives for a week.

Mr. and Mrs. John Herzing and daughters, Misses Lottie and Ester, are here from Brackettville visiting relatives, the families of Chas. Senne and Hy. Hartman, and probably others.

Mr. and Mrs. John Herzing and daughters, and Mrs. Hy. Hartmann visited Geo. Leinweber's family at the Upper Hondo last week.

Mrs. Anton Polk was a San Antonio visitor last week.

We are glad to report Mr. Wm. Folk at home and well after taking several months' treatment in San Antonio.

Fritz Folk went to San Antonio last week to accompany his brother, Anton, home.

Albert Saathoff was a San Antonio visitor last week.

H. F. and Fritz Hartmann were amongst those from here that attended St. Dominic's festival dance at D'Hanis.

Walter Winkler, Hugo, Julius and Ernest Mumme, and Charles, Louis and Marcel Saathoff visited the big dam and enjoyed a fishing in the big lake.

The young people of New Fountain tendered a pleasant surprise party to Mr. and Mrs. George Gerdes Friday night, August 6th.

Mr. and Mrs. Chas. Senne gave a party at their home last Saturday night.

Misses Hulda and Lillie Muennink visited relatives and friends in San Antonio and Seguin last week.

Mrs. Mattie Harnes and niece, Miss Frida Weyerts, are here from Alpine visiting relatives here and at Quilhi.

Mr. and Mrs. W. G. Poehler returned yesterday evening after a several weeks' pleasant visit with relatives at Alpine and Brackettville. They were accompanied home by their nephew, Milton Weyerts of Alpine, who will visit relatives here for some time.

J. E. Muennink was a San Antonio visitor last week.

Miss Lydia Winkler was a pleasant visitor to San Antonio last week. She returned home Saturday accompanied by her sister, Miss Katie, who will visit here for a while.

Hy. Poehler and F. H. Bohlen attended the "Farmers' Union Convention" at Houston. They report a pleasant trip.

Willie Helmke left on this evening's train for San Antonio.

Mr. and Mrs. F. H. Bohlen and daughter, Miss Frieda, will leave tomorrow for Yorktown where they will visit relatives.

New Fountain, Texas, Aug. 18, 1915.

Holy Communion Services.

On last Sunday the Catholic Church was taxed to its capacity by the friends and relatives of the children who received their First Solemn Holy Communion. The class consisted of 19 members who had been under daily instruction for several weeks prior to the occasion. The services began promptly at 9 A. M. and after Communion an appropriate sermon on the Institution of the Blessed Eucharist was preached by the Pastor, Rev. J. J. Myers. At 4 P. M. the children renewed their Baptismal vows, were enrolled in the Brown Scapular and the services were brought to a close by Benediction of the most Adorable Sacrament.

Names of the Communion class are as follows: Ethel Hutzler, Sarah Wyatt, Johnna Garteiser, Norma Rothe, Lorine Heath, Alice Batot, Carolin Bihartz, Lillie Mann, Meta Batot, Henrietta Batot, Alice Bihartz, Herman Garteiser, Milton Fohn, Leo Wernette, Henry Batot, Quin Ney, Oscar Sauter, Hugo Batot and Clarence Wernette.

On Sunday evening Father Myers left for San Antonio to be present at the funeral of his life-long friend, Rev. J. Daffy, who died at the Santa Rosa Hospital early Saturday morning.

On Oct. 11th Right Rev. J. W. Shaw, bishop of the diocese of San Antonio, will be here to give Confirmation.

The ladies of the Catholic Congregation are going to hold a Fair for the benefit of the church on Nov. 2nd-3rd first week in district court.

The following committee is in charge: Mrs. Chas. Schuehle, Chairman; Mrs. Chas. Schuehle, Treasurer; Mrs. H. E. Hudson, Secretary; Mrs. Toby Koch and Mrs. Fritz DeGroot.

Donations of all kinds will be gratefully received and acknowledged by above Committee.

CONTRIBUTED.

Wins More Hill Honors.

More hill-climbing honors went to Saxon motor cars when a six-cylinder model of this make captured first prize at Stamford, Conn., making a hill seven-eighths of a mile long, with a 15 to 18 per cent grade, in the time of one minute, two and one-fifth seconds.

Competing against the Saxon were five other cars, two of which were higher in price than the winner. The Saxon won with a comfortable margin, taking the lead early in the contest and holding it throughout the race.

Along with information about this victory came word of another in a speedway race at Lafayette, Ind. On this occasion a Saxon roadster took first place in a five-mile speed contest, with another roadster of the same make coming in second. One of the competing machines was the Cornelian, which appeared at the 500-mile Indianapolis speedway race.

In winning these contests the Saxon added to the laurels gained at the big hill-climbing event recently held at Uniontown, Pa. Here a six-cylinder Saxon captured second place, and was put against a number of other automobiles of higher price. First place was taken by a Chalmers.

The climb was up Summit Mountain, which is recognized as the Nation's greatest test hill for automobiles. This mountain is four miles long and punctured with many sharp grades and hairpin turns. The Saxon was driven by M. A. Croker, who piloted the Lincoln Highway Saxon across the continent for the first trip continuously made over the highway.—San Antonio Express.

Best Paint.

What is it?
Devco.
How Devco?
It's 160 years old; but that isn't how. It has long been the best; but that isn't how.

It has been developed by use and study, by study and use; that is how; and approved by experience, many years; that's how.

It commands itself by long lasting and small paint-cost; not cheap by the gallon, but cheap by the job and cheap by the year and ten years, cheap by the lifetime.

That's how.

HOLLOWAY BROS.

Commissioners' Court.

The regular August Term of the Commissioners' Court met Monday, Aug. 9th. Court convened with all members present. First business transacted was the passing on wolf, cat, and rabbit scalps which were presented to the court for approval and payment. The majority of the claims were approved, some, however, being rejected by the court on the grounds of insufficient proof.

Tuesday, Aug. 10th, Annual account made out, compared, and approved. Sheriff's quarterly report examined and approved.

Aug. 11th. Treasurer's Report examined and approved, and County Warrants examined, approved and cancelled.

Aug. 12th. Petition of J. J. Moehring and others for a new second class road to be known as the Moehring Road, in Commissioners Precinct No. 1, was heard by the court and granted.

Petition of Albert Reitzer and others for road leading over the Medina Dam, was postponed by request of Mr. Reitzer, and will be taken up at the November term of the Court.

Petition of Emil Schmidt and others for a low water bridge over the Medina River near the town of Lacoste in Bonded Road District No. 2, was granted.

The Collector's Reports for the months of May, June, and July were examined and approved by the court.

A motion was made, seconded, and carried that condemnation proceedings be instituted on the Naegelin property below Devine, for land necessary in the opening of the new Devine-Atascosa Co. Road.

Aug. 13th. Quarterly finance report made out, compared and approved.

The County Assessor's Rolls were examined by the court, compared and approved, and an order passed allowing him his commission as provided by law.

Bills approved.

Court adjourned Friday evening, there being no further business to transact.

Lacoste Laconics.

Mr. and Mrs. E. F. Hilliard and Mrs. F. R. Dickey paid a visit to friends at Castroville one day last week.

Mr. Weynand of Hondo was here on business Saturday.

Geo. Schuehle paid a visit to home-folks at Hondo Friday.

Born, to Mr. and Mrs. John N. Conrad a sweet little baby boy Wednesday, Aug. 11th. Mother and son are doing fine and the proud Daddy is slowly recovering.

Thomas Jefferson "Father of the Declaration of Independence"

THIS noble founder of the Democratic Party immortalized himself by writing our Declaration of Independence—the document which laid the foundations of Free Government, not only for our own beloved land, but for all the world. His countrymen twice elected him President and will always treasure his memory. Jefferson was the most ardent advocate of Universal Freedom of his time and it was his wisdom and foresight which brought about the Louisiana Purchase. Every drop of his Virginia blood loved Liberty, and because he wanted Americans to be assured of it for all time he championed with all his might and main the signing of the Constitution of the United States. None of the Fathers of the Republic were more far-seeing than he and none knew better than he that a mild brew of barley-malt and hops is truly a temperance drink. Hence, in 1816 he wrote President Madison: "A Captain Miller is about to settle in this country and establish a brewery. I wish to see this beverage become common. Jefferson lived past his 83rd year and all his life he was a moderate user of light wines and barley brews. It is unimaginable that were he alive today he would vote otherwise than NO to proposed tyrannous prohibition laws. For 53 years Anheuser-Busch have been brewing the kind honest barley and hop brews which Jefferson hoped in his day to see the National beverage of Americans. Exactly such a beer is BUDWEISER. Its quality, purity, mildness and exquisite flavor have won its way to the top. To-day 7500 people are daily required to meet the public demand. Its sales exceed any other beer by millions of bottles.
